WHAT IS FAMILY LEARNING CONNECTION?

You are your child's first and most important teacher! Family Learning Connection is here to support you in that role of caring for your children!

At some point in time, all caregivers need support. We have specialists who provide the care and guidance caregivers need. When you attend our free family learning series in Linn County, you'll learn tips and child-development information about children 0-5 years old. You'll also meet other families with young children and discuss your lives as caregivers. We offer both virtual and in-person options. At our in-person workshops, expect:

- Family mealtime
- Grown-up-child activity
- Grown-up/caregiver meeting
- Families must have at least one child from ages 0-5.

Siblings are welcome! We can arrange transportation and translation, if needed, to make your experience easier! Please request these services when registering. These workshops are for anyone who has young children in their home, including grandparents, foster parents, and other family members!

WHAT SERVICES DO WE OFFER?

Family Learning Groups that we are offering this year include (but are not limited to):

- Kid Connect
- Kids-n-Canvas
- Positive Solutions for Families
- Circle of Security
- Parenting in a New Country
- Raising School-Ready Readers

Our Services

- 4-8 week free family learning groups series
- 1-hour virtual or in-person sessions for businesses and childcare organizations
- How to get started - Check out the family learning groups that are currently open for family registration at hacap.org/flc.
