Civil Rights Training

2024

Introduction

- The purpose of this training is to review the policies and procedures set forth by the United States Department of Agriculture (USDA) Food and Nutrition Service (FNS) to ensure compliance with the enforcement of the prohibition against discrimination within your program.
- USDA FNS mandates that Civil Rights training be conducted as part of new employee orientation and annually thereafter to inform and update staff of their obligations under Civil Rights laws and regulations.
- This is intended for all HACAP programs even though portions of this training will mention WIC specifically.

Civil Rights Training Requirements

- 9 key areas to be addressed in this training:
 - Collection and use of data
 - Effective public notification systems
 - Complaint procedures
 - Compliance review techniques
 - Resolution of noncompliance
 - Requirements for reasonable accommodation of persons with disabilities
 - Requirements for language assistance
 - Conflict resolution
 - Customer service

Documentation and Monitoring

- Remember to document that this training was completed!
- Completion of Civil Rights training for local agency staff (at the time of hire and annually thereafter) will be monitored as part of the local agency on-site administrative and office reviews.
- The supervisor at the state office will verify training completion by State WIC staff at their annual performance review.

Federal Regulations

- 7 CFR Part 246.8 (a)(1) - (a) Civil rights requirements. The State agency shall comply with the requirements of title VI of the Civil Rights Act of 1964, title IX of the Education Amendments of 1972, section 504 of the Rehabilitation Act of 1973, the Age Discrimination Act of 1975, Department of Agriculture regulations on nondiscrimination and FNS instructions to ensure that **no person shall, on the grounds of race, color, national origin, age, sex or handicap, be excluded from participation in, be denied benefits of, or be otherwise subjected to discrimination under the Program.**

Protected Bases

- No person can be denied benefits based on:
 - Race
 - Color
 - National Origin
 - Sex
 - Reprisal and Retaliation for prior Civil Rights Activity
 - Gender Identity
 - Sexual Orientation
 - Disability
 - Age

Title VI of the Civil Rights Act of 1964

- Prohibits discrimination based on race, color, and national origin in programs or activities receiving federal financial assistance.

“Simple justice requires that public funds, to which all taxpayers of all races contribute, not be spent in any fashion which encourages, entrenches, subsidizes or results in racial discrimination.”

— John F. Kennedy

Title IX of the Education Amendments of 1972

- Prohibits sexual discrimination in education programs or activities that receive any federal financial assistance.
 - Title IX covers the WIC Program because of the required nutrition education component.

Sections 504 and 508 of the Rehabilitation Act of 1973

- Prohibits discrimination on the basis of disability in programs and activities receiving or benefiting from federal financial assistance.
- Must provide services to disabled clients which:
 - Are equal to those provided to non-disabled clients
 - Are held in integrated settings, appropriate to each person's needs
 - Do not limit participation because of the disability
 - Reasonable modifications should be made on a case by case basis
 - Do not deny them the opportunity to serve on a planning or advisory board because of a disability
 - Allow full participation without barriers restricting access to the program

Americans with Disabilities Act

- Title II and Title III of the Americans with Disabilities Act of 1990 extended the requirements to all services, programs, and activities of State and local governments and prohibits discrimination based on disability in other public services.
- Disability is defined by the ADA as a person who has a physical or mental impairment which substantially limits one or more major life activity, has a record of such an impairment, or is regarded as having such an impairment.

Clinic Accessibility

- The WIC Clinic Access Survey is a tool for local WIC agencies to use to review all new and renovated clinic sites to determine compliance with the Americans with Disabilities Act.
- Reviews must be completed before the site is used as a clinic and written evaluations must be retained in agency files.
- Following completion of the survey, a transition plan should be completed to address problem areas.
 - Plans should be updated following significant clinic renovations.

Age Discrimination Act of 1975

- Prohibits discrimination based on age.
- Whenever congressional legislation specifies or sets restrictions on program eligibility, those provisions take precedence over certain protected bases.
- Since Section 17 of the Child Nutrition Act of 1966, as amended, defines the purpose of the WIC program as provision of benefits specifically to pregnant women, breastfeeding and postpartum women, infants, and children of certain age limitations the eligibility determination according to age in itself is not a violation of civil rights laws.

Age Discrimination Act of 1975

- It would potentially be a violation of civil rights law to deny benefits to a woman strictly based on her age.
 - Eligibility decisions, such as denying teenaged applicants for “immorality” or terminating a postpartum woman because she is over a certain age, are not allowed.

Title VI of the Civil Rights Act and Limited English Proficiency (LEP)

- State agencies, local agencies, or other sub-recipients that fail to provide services to potentially eligible LEP persons may be discriminating on the basis of national origin.
- You are required to take reasonable steps to assure meaningful access to the information and services you provide. This is to be provided at no cost to the participant.

What are Reasonable Steps?

- Dependent on the number or proportion of LEP persons served or encountered in the eligible population.
 - Greater number of LEP persons increases the need for language services
- Dependent on the frequency with which LEP individuals come in contact with the program.
 - More frequent contact with a particular language group(s) make it more likely that enhanced services in that language are needed

What are Reasonable Steps?

- Dependent on the nature and importance of the program, activity or service provided.
 - More important activities (e.g., communicating eligibility requirements) increases the need for language services
- Dependent on the resources available and their costs.
 - Smaller recipients with limited budgets are not expected to provide the same level of language services as larger recipients with larger budgets
 - Reasonable steps may cease to be reasonable when the costs imposed substantially exceed the benefits
 - Technological advances can often help reduce cost and resource issues

Language Assistance Options

- Hiring bilingual staff who are trained and competent in the skill of interpreting.
- Contracting with an interpreter service for trained and competent interpreters.
- Formally engaging community volunteers who are trained and competent in the skill of interpreting.
- Enrolling WIC staff in language classes.
- Utilizing a telephonic or web-based interpreter service.
- Providing forms, education, and audiovisual materials to WIC participants in other languages.

Data Collection

- Racial/Ethnic data is collected by the local agencies for each participant in Focus.
- Access to this data is limited to authorized local and state WIC personnel.
- Federal and State governments require this data be used to generate reports which will:
 - Determine how effectively FNS programs are reaching potentially eligible persons and beneficiaries
 - Identify areas where additional outreach is needed
 - Assist in the selection of locations for compliance reviews

Asking about Race and Ethnicity

- FNS Instruction 113-1 requires that all program applicants be asked to identify all applicable racial categories.
- Self-reporting is the preferred method of obtaining characteristic data. Reporting is voluntary.
- If an applicant refuses to self-identify, they should be informed that visual observation will be used to collect the data.
 - A data collector may not second guess or challenge an applicant's self-declaration unless such declarations are blatantly false.

For CACFP Visual observation will no longer be used per memo:
<https://www.fns.usda.gov/cn/Race-and-Ethnicity-Data-Policy-Rescission>

Asking about Race and Ethnicity

- Applicants must be advised of the purpose for which race/ethnicity data is collected.
- The following is an example of what may be said when collecting race and ethnicity data from a participant:
 - “The Federal government collects information on racial and ethnic backgrounds to see if WIC is accessible to all groups of individuals. This information will in no way affect your eligibility for WIC or your participation in WIC.”

What is Ethnicity?

- Refers to an association with a particular racial, national, or cultural group, whose customs, beliefs, and languages are observed. Also refers to individuals whose identity is distinctive in terms of common cultural traditions or heritage.
- Approved designations for collection are:
 - Hispanic or Latino
 - Not Hispanic or Latino

Ethnicity Designation

- Hispanic or Latino
 - Origins may include Cuba, Mexico, Puerto Rico, South or Central America.
 - The term “Spanish origin” may be used in addition to “Hispanic or Latino.”
- Not Hispanic or Latino

What is Race?

- Refers to people of a shared ancestry.
- Make participants aware they may select more than one.
- FNS requires reporting on the following 5 categories of race:
 - American Indian or Alaskan Native
 - Asian
 - Black or African American
 - Native Hawaiian or Other Pacific Islander
 - White

Race Designations

- American Indian or Alaskan Native
 - A person having origins in any of the original peoples of North, Central or South America who maintain tribal affiliation or community attachment.
