 - **Phone:** (262)309-6648
 - **Email:** bethompson@wbmi.com

Filing A Claim:

Claims need to be filed within 24 hrs to avoid possible fines.

There are multiple ways to file a claim, and a claim can be initiated even if you don't have all the information about the injury.

Claims should be filed by the HR Department. If you are unable to connect with someone from the HR Department to begin the claim file within 24 hours; please do not hesitate to submit information via email to the normal parties required & a claims representative and initiate a claim by doing any of the following:

- **Calling:** 1-800-236-5010 ext. 5247 (see call preparation guide pg 9)
- **Faxing a First Report of Injury to:** 888-926-9299
- **Email a First Report of Injury to:** directconnect@wbmi.com

Post Accident Procedure:

First Report of Injury should be completed prior to going to see a preferred provider unless emergency treatment is required. A call should be made in advance to the #1 preferred facility (see pgs 4 - 8) & an appointment made in advance when the situation allows.

***Note:** The First Report of Injury packet has been updated and is available through HACAP Core Docs. Using the updated packet is vital to a smooth process.

- **First Report of Injury Packet completed & submitted to:**
 - **HR Inbox:** hresources@hacap.org
 - **CC:** jkunde@hacap.org
 - **HR Direct Fax:** (319)540-8815

After Hours / Immediate Need Cases:

- If the #1 preferred facility does not have availability or is closed, employees should be sent to #2 preferred facility or nearest Urgent Care.
- If the #2 preferred facility is closed and no Urgent Care is available, employees should be sent to the nearest Emergency Room for treatment. **Do Not** wait until the morning to send them for treatment.

Employee Refusal of Treatment:

- If an employee refuses treatment a first report of injury still needs to be completed with a declination of treatment & submitted.
- Refusal of treatment does not prevent an employee from requesting treatment at a later time.
- **IMPORTANT:** It is important to complete the first report of injury!
If an employee chooses to seek treatment at a later time due to lack of improvement; prompt reporting and sending employees to preferred providers reduces questions, concerns and processing times from the Work Comp insurance carrier.

Preferred Treatment Facilities:
